

Contemporary Hideaway With a Hint of Luxury

86 Stanley Road, Camp Hill

Located within the prestigious suburb of Camp Hill, the unassuming façade of this delightful family home gives little clue as to what lies within. Step through the front door and you will find everything you might expect and more. An urban residence, designed to create a fantastic feeling of privacy, is well suited to our subtropical climate.

A sparkling solar heated Magna Pool is certainly a luxurious addition to this property. Used by quality spa hotels worldwide, this unique patented system delivers a healthier and more environmentally friendly alternative than salt and chlorine using therapeutic minerals which have been proven to be beneficial for your health and wellbeing.
